Joshua Bennett

Junior Web Developer

Joshua Bennett

Austin, TX

856-906-0146
joshuabennett@utexas.edu
joshuabennett.dev
github.com/joshuabennett

SKILLS

HTML, CSS, SASS, Bulma, JavaScript, Vue.js, Adobe Photoshop, Visual Studio Code, Git, Slack, Webpack, NPM, Linux, Windows, Firebase, Google Domains

PROJECTS

Reddit Search / reddit.joshuabennett.dev

Vue.js, Bulma, Custom Google Search API, Snoowrap

Leveraged two APIs to perform a custom search on Reddit, but using Google's superior search algorithms. Discarded extraneous information and pleasantly displayed results using Vue.js and Bulma.

Tournament Bracket Manager / brackets.joshuabennett.dev

Vue.js, Bulma

Utilized Vue.js and its component architecture to build a Single Page Application that creates and monitors a 4 to 16 player tournament bracket.

Terraforming Mars Scoresheet / mars.joshuabennett.dev

Vue.js, Bulma, vee-validate, SASS

Created a web application that evaluates the scores of players in the popular board game 'Terraforming Mars'. Incorporated the vee-validate library to validate all user inputs. Exploited SASS to quickly establish a corresponding theme with Bulma.

Anime Recommendations / anime.joshuabennett.dev

Vanilla JS, Bulma, Jikan API

Developed an algorithm using the Jikan API to evaluate a MyAnimeList.net user's collection of watched anime and generate the 5 best recommendations for anime they should watch.

EDUCATION

University of Texas at Austin / Computer Science

2010 - 2014, AUSTIN, TX

EXPERIENCE

Walgreens / Pharmacy Technician

FEBRUARY 2018 - PRESENT, AUSTIN, TX
